PROFILE

Software Engineer with **6+ years** of experience crafting user-focused applications and working on front-end development for AI products. Passionate about React and cutting-edge frontend technologies, **I thrive on tackling new challenges and learning daily.**

Been to 35+ countries and loved every single one of them, currently based in Lisbon, Portugal, but **I'm ready to relocate and embark on my next exciting journey.**

EDUCATION

Systems Analysis and Development, Fatec Indaiatuba — Indaiatuba

Jan 2018 — Dec 2020

EMPLOYMENT HISTORY

Senior Software Engineer, VORTAL | Powered by Hubexo — Lisbon

Jul 2022 — Present

As a senior software engineer, I create and mantain user-centric applications based on Figma designs using React, Ant Design, Material-UI, or Tailwind CSS. Over the past year, I focused on developing front-end solutions for all AI-driven products on our platform, delivering innovative and user-centric experiences.

Freelance Front-end Developer, Upwork — Reggio Calabria

May 2021 — Jan 2023

Created pixel-perfect mobile and web applications for global clients while traveling Europe. Collaborated with clients to design and implement solutions using Figma, Adobe XD, and modern web technologies, ensuring usability, appeal, and timely delivery.
